Bringing businesses
and customers
closer together

Your logo can say a lot about your company. Along with our media partner Visutech Design Limited, we can produce eye catching logos of a high quality at a price to suit your business needs.

We recognise that having professionally printed stationary can put a strain on your budget. That is why we have designed a series of templates that meet your stationary needs. These templates can be used over and over again but more importantly you only need to print what you need! For that added professional touch, just print on a high quality paper. We can arrange bulk printing to match your needs

For promotional material we also design professionally produced folders that will make your company stand out and hard to forget. These folders will complete your package, making them ideal for handing out at exhibitions, shows and trade fairs.

If you have ever desired to have your own website but thought it too expensive or time consuming, think again! We have produced many excellent, easy to use, cost effective and professionally designed websites that will have you up and running in less than a week. What's stopping you? You could have one too! Simply call us on 0870 746 9701 - or tick the appropriate box on the drop box leaflet.

The Softhouse group of companies are dedicated to creating products and services in an environment that assists businesses in promoting their products and services to effectively bring them closer to the customer.

Here you will be able to find out more about the different companies that make up the group and how each one can help your business connect with customers.

You are only a step away from really getting your business moving, so please read on.
